

Verplas Limited Extrusion Division

In addition to the comprehensive range of Ventilation and Ducting products available from Verplas, we are now able to offer standard extrusions and bespoke extrusion products from our own Extrusion Division.

We manufacture Pipes, Tubes and Profiles in a host of materials including Rigid and

Flexible PVC, Polypropylene, High and Low Density Polyethylene, ABS and many specialist grades such as TPE's, Flame Retarded Plastics and LSOH.

Our extensive range of machinery and processes means that we can offer products in the following categories:-

Round Pipes

A range of diameters up to 160mm OD in Rigid PVC or Non-PVC materials.

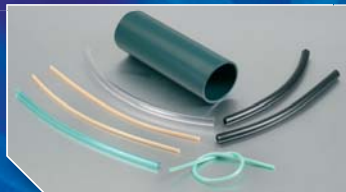

Rectangular Ducts

Many standard sizes including 110 x 54mm, 150 x 70mm, 180 x 90mm and 204 x 60mm in Rigid PVC.

Rigid Profiles

Standard products for the Leisure Home Market and many others in Rigid PVC, ABS and Dual Hardness Co-extrusions. Door Surrounds a speciality.

Flexible Tubes

In diameters up to 50mm bore in clear PVC, Filled PVC, Tinted or Coloured PVC and Low Density Polyethylene and Thermoplastic Elastomers.

Flexible Profiles

Any shape and size up to 70 x 70mm in Flexible PVC, Thermoplastic Elastomers and Alloys.

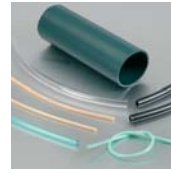

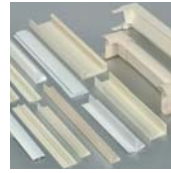

Multi-Cavity Board

Standard sizes 223 x 29mm and 310 x 29mm in Rigid PVC but any size up to 320mm wide can be accommodated.

Special Products

Bespoke products within the physical ranges above in standard or special materials.

Rigid PVC Profiles
Flexible Tubes and Profiles
Polypropylene and High-Density Polyethylene Pipes
Polyurethane Recoils
Nylon Tube and Recoils
Flame Retarded Tube and Profiles
Coiling, Forming and Assembly
Design and Manufacture of Special Products

Our extrusion lines range from 45mm single to 90mm Twin Screw and include the latest state of the art equipment from Krauss Maffei and Baston.

If you have seen anything of interest on this introductory leaflet and would like us to quote for a new or existing extrusion or would appreciate some assistance with problem solving or design, then please contact us today.
We would be delighted to hear from you.

The technology behind the lifestyle.
