The technology behind the lifestyle.

Verplas Vents

Hit & Miss Vent

The term hit and miss refers to the open/closed design. Hit and miss vents can be closed to restrict the air flow and should not be used when venting a gas appliance.

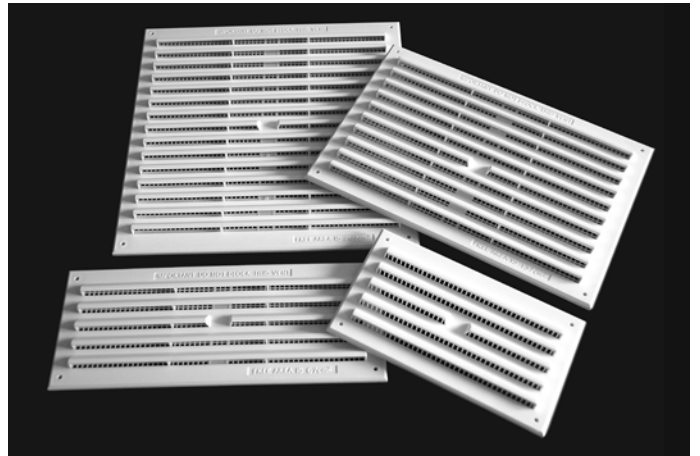

Code	Description
VKC423	9x9" Hit & Miss Vent
VKC424	9x6" Hit & Miss Vent
VKC425	9x3" Hit & Miss Vent
VKC426	6x3" Hit & Miss Vent

Louvre & Flyscreen

An ideal way of venting ducting to both internal and external walls and doors. The integral Flyscreen keeps out unwanted insects.

Code	Description
VKC429	9x9" Louvre & Flyscreen
VKC430	9x6" Louvre & Flyscreen
VKC431	9x3" Louvre & Flyscreen
VKC432	6x3" Louvre & Flyscreen

Gas Vent

For use where there is a gas fire, boiler etc within the room.

Code	Description
VKC427	9x6" Gas Vent
VKC428	9x3" Gas Vent
